

MB COMPACT

PELLET HYDRO STOVE

The MB COMPACT is specifically designed for installations aimed at directing the stove's entire heating power to the hydronic heating system. This is made possible by superior external insulation, which effectively minimizes heat transfer to the surrounding room.

In addition to its impressive technical capabilities, the MB COMPACT features a sleek and elegant design, making it suitable for installation in service rooms, as well as a centerpiece in the heart of the home or office.
