PS AIR

PELLET AIR STOVE

The PS pellet air stove is an excellent budget-friendly solution for heating larger spaces. With a maximum output of 12 kW, it has become a preferred choice for many families and small businesses.

Smaller versions are also available, offering a variety of colors and additional features to cater to each customer's unique requirements.

MAIN FEATURES

- Automatic combustion management
- Additional ambient heating fan
- Work time programming, weekly chrono
- Simple periodic maintenance
- Room temperature control
- Presence of safeties for key components
- Factory reset of the product
- Easy to use LCD display
- Spacious ashtray compartment
- Optional separate room thermostat module
- Overheating safety

COLORS

PS pellet air stove is available in four different colors to meet the needs of every design project. The surface is processed with temperature resisting paint for maximum protection during the operation.
